

TECHNICAL DATA SHEET

BETASAN ANTIBACTERIAL

HAND GEL

Gel Hand Sanitizer

DESCRIPTION

Betasan Antibacterial Hand Gel has been specially formulated as an alcohol based liquid hand sanitizer, which will effectively and efficiently sanitize the hands without causing dryness. When used as directed, Betasan Antibacterial Hand Gel is effective against all alcohol sensitive bacteria, yeasts and moulds. Betasan Antibacterial Hand Gel has been tested in accordance with SABS 1853:2017, which determined the bactericidal efficacy of the product, using *P. aeruginosa*, *E. coli* and *S. aureus* as test organisms and was found to be fully compliant with this specification.

METHOD OF USE

Apply about a teaspoonful (5ml) of Betasan Antibacterial Hand Gel onto the hand and work in well. Do not rinse off with water and allow to air dry. It is recommended that Betasan Antibacterial Hand Gel be applied prior to and after any contact has been made with suspected contaminated surfaces and/or areas.

ACTIVE INGREDIENTS

Ethyl Alcohol
pH(10%)

≥ 60%
7.5

PROPERTIES

Appearance	: Clear, blue semi-viscous liquid
Odour	: Typical
R.D. @ 20° C	: 0.89

PACKAGING

Betasan Antibacterial Hand Gel is packed in 40ml bottles and 700/800ml sachets.

PRECAUTIONS

Betasan Antibacterial Hand Gel when used as directed is essentially non-hazardous. Contact with the eye will cause a stinging sensation. If this occurs, flush with copious amounts of water and seek medical advice. If ingested, drink plenty of water and seek medical attention. Do not induce vomiting.
